## Irrigation Information & Procedures

### **Irrigation Water Supply – Community Well Pump**

Each home has its own, independent lawn irrigation system and controller. The water used for irrigation at each home is supplied by a community well pump, which is shared by all homes. To manage the load on the community pump and ensure compliance with Manatee County watering guidelines, the well pump system is set up in zones with 20 homes per zone with each home abiding by its own scheduled watering time. Please refer to the Irrigation Schedule (see Appendix A) to find the days/times dedicated to your home. Homeowners **MUST** ensure that their system is set according to this pre-determined schedule to avoid undue stress on the pump motor. Watering at unscheduled times will cause decreased water pressure for scheduled users and result in increased monthly maintenance and electricity costs. Between the regularly scheduled watering times and Mother Nature, every lawn should receive enough water to provide a beautiful lawn throughout the year. Please refrain from watering outside your allotted time.

### **Homeowner Irrigation Systems – Maintenance & Testing**

Homeowners are solely responsible for all required maintenance, testing and/or repair of their individual irrigation systems, valves, controllers, piping, etc. To aide homeowners in such efforts, the community well pump will be tentatively activated from 10:00am to 2:00pm on the specific Saturdays/Sundays as shown in the schedule below to allow homeowners the opportunity to inspect, repair and test their systems. Therefore, if you intend to utilize an irrigation contractor for maintenance/testing, you should arrange their visit to occur between 10:00am and 2:00pm on one of the Saturdays/Sundays shown below. Please keep in mind that the weekend activation of the well pump is carried out by community volunteers, so there may be occasions where scheduling conflicts, weather events or other factors result in the well pump activation not occurring per the intended schedule.

### **Well Pump Activation – Special Requests**

Homeowners who are unable to schedule maintenance/repairs during the preferred weekend schedule as shown below, will be required to submit a completed Well Pump Activation Request to the association at least seventy-two (72) hours in advance. Please refer to the community website to obtain a copy of the Well Pump Activation Request form. Well pump activation for testing outside of the weekend schedule is **ONLY** available on Tuesdays and Thursdays between the hours of 9:00am and 2:00pm. The well pump will **NOT** be activated for anything other than pre-arranged repairs. Please don't ask us to activate the well pump for any other reasons (i.e. fertilized lawns, extra watering, etc.) or on any other days of the week. Homeowners who have experienced a leak or other failure within their irrigation system, should simply disable the system until repairs can be arranged per the weekend schedule or via an Activation Request.
